Create, edit, format and collaborate on any file in Google Docs, no matter what machine or device it is being edited on. Compatible with Google Docs, Google Sheets and Google Slides. Create, edit, format and share anywhere with a nice and friendly user interface. Design ideas: Document Navigation Office Icons Share and Collaboration For our latest version 2.3, Memeo Connect now includes the following new features: • Sync with file selection for Google Docs, Google Sheets, and Google Slides. • Quick insertion for LibreOffice Impress, Microsoft PowerPoint, Microsoft Word, and a range of other applications. • Built-in translation and specific formatting for Google Docs, Google Sheets, and Google Slides. In earlier versions of the app, a user could upload a Memeo file, but it would appear on the Memeo GDrive as a folder, not a file. Memeo Connect 2.3 addresses that by allowing the user to select a Memeo file that's already in the Memeo GDrive, so it now appears as a file. Memeo 2.3 also adds support for inserting directly into Microsoft Word, Microsoft PowerPoint, and the LibreOffice Impress application. In addition, if you save a Google Docs document to Memeo GDrive and open it again in Memeo Connect, you'll automatically have the latest changes. For text formatting, Memeo Connect 2.3 has a built-in translator that allows you to select a language to translate your text and allows you to insert the translated text directly into the Memeo GDrive to be imported into other documents or Google Docs. What's New In?

This is a simple, lightweight program designed to help you connect your Google Docs to the internet. Simply drag and drop any Google Doc on to this program and it will "pool" your files onto your Google Docs online. You can now edit and share online. Best of all, you can "offline" edit or even allow multiple users to edit the same document from any computer. You can also synchronize pages and comment/annotate your docs in real time. The program is desktop only and runs on Windows.

Key features: Synchronize your docs online Auto-update online when you change the offline version Auto-fill your data fields Offline editing Commenting via in-line annotations FTP in-line sharing Mimic Google Docs text Use the HTML5 Editor Javascript support

What's New: Bug Fixes - Fixed a bug which caused the Synchronize Docs window to appear more than once. Fixed synchronization problems when opening the Doc in Chrome (I know you'll love this!) Fixed user feedback after cancel. Also for all other feedback you can see more in the "changelog.txt"

Note: Works only on Mac or PC. To install download application from Windows Phone Marketplace. This is a mobile phone app not a desktop or web application.

A: Browsing to on a web browser (Chrome for example) will upload the latest version of the document to the Google Docs server and start editing. The file will be saved locally using your Google account, it can be accessed anywhere by the user. After a while the file will be updated online again.

A: There are multiple applications on the Windows Phone Marketplace for this, I personally use Мемемо WorkDrop 💎 предложили своей руководствующей команде свое решение. Я думаю, ч
